

Authorized Retreads

Precure G178™SS

**Regional and Mixed Service
Wide-Base Tire Applications**

- Exclusive Goodyear tread rubber compounds provide traction & handling equal or better than the similar new Goodyear tire in drive applications
- 6-lug element, “wavy bar” supports the tire load, increases the amount of tread face contact, and improves traction
- 31-edges of tread elements provide lateral and circumferential traction in all weather conditions
- Open slots and grooves in tread face provide traction in muddy, wet or slushy driving conditions
- Open shoulder allows good on and off road applications
- Equals similar new tire design for long treadwear per 32nd of tread depth
- Cut, chip and flaking resistance in on and off road applications
- 27/32” tread depth
