

Authorized Retreads

Mold Cure G167

Goodyear has the experience in tire design, manufacturing and tread rubber compounds to bring you retread tires just like new tires.

- **Goodyear exclusive tread Compound**
 - ✓ Equals similar new tire design for treadwear per 32nd of tread depth
 - ✓ Equals similar new tire design for traction & handling
- **22/32" tread depth for long tread wear**
- **2-blade or 3-blade sipes in tread lug for good lateral stability & traction without stone holding**
- **5-sided shoulder lug element for firm biting traction in all mud, snow and 'slushy' conditions**
- **6-sided middle lug element for good wear, lateral & circumferential traction**
- **2-centerline ridding ribs for long wear and quiet ride**
