

**Authorized Retreads**

# Precure G319 SA

**Spread Axle and All Position Applications**

- **Precure G319SA in a new scuff resistant compound – *Designed for the demands of spread axle trailer service!***
- **16/32nd tread provides deep tread over complete tread face to resist cutting, chipping and chunking of tread**
- **Increased tread surface contact and high tread rubber-to-groove void ratio means extended miles to removal and maximum tread wear**
- **Unique fluted shoulder design with a combination of notched shoulder buttressing with solid, rounded shoulder ribs allows greater flexibility in the upper sidewall to resist high lateral force tearing when tire is cornered**
- **Compound is resistant to chipping, flaking and chunking of tread**
