

Authorized Retreads

Precure Radial Special 12

**Regional and Line Haul Trailer
Applications**

- Goodyear exclusive precure tread compound - developed to provide good traction and good treadwear in everyday operation
- Shoulder decoupling ribs to reduce irregular shoulder wear in trailer applications
- 4-open tread grooves for good all weather traction
- 5-rib pattern with plenty of blade edges for good wet or dry traction on-highway, with siping in the ribs for lateral and directional handling stability
- 12/32" tread depth
- Available as "special order" precure tread siped where additional traction is required in everyday service
- For Regional and Line Haul trailer position applications – drive, trailer or tag axles
